SUSAN NICHOLAS, MD

ABOUT SUSAN

Dr. Susan Nicholas is a physician and surgeon who after a conscious awakening, transitioned her life into soul healing work. Today, she is a telepathic medical intuitive, energy healer, and international speaker. Her highly sought-after speaking platform is entitled *The Frequency of Money*, where she engages and inspires audiences to positively transform their relationship with money. Susan speaks to schools, associations, and organizations, empowering them to think both deeply and differently about the energy that is our money. Dr. Nicholas is a TEDx speaker on *Money Consciousness: Overcoming Generational Poverty*.

Sometimes the Universe just listens and surrounds you with the missing catalyst energy to make it happen. Mine was to find Dr. Nicholas. Her work has allowed me to deeply understand why unconsciously I would build my own barriers to financial success.

-Vanessa Morgenstern-Kenan,
Director DOSE OF COLORS

“

I've made two major career transitions in my life. Neither one was easy. If you are a medical or business professional who is unfulfilled and searching for your true purpose, I am here to work with you through your transition.

-Susan Nicholas, MD

- Energy Healer & Conscious Coach

As the founder of the Human Consciousness Consortium Publishing, Dr. Nicholas is the author of *The Duality of Being: Perspectives from Multidimensional Travel*.

She is the author of an illustrated conscious children's book series which includes the titles *Two Parts of Me: I am More Than My Body* and *The Death of Cupcake: A Child's Experience With Loss*. Her titles are available worldwide. Susan can also be found hosting her *Be Conscious® Podcast* and guest podcasting with business and medical professional influencers. Her diverse work has a common thread to awaken humanity to consciousness.

My weekly *Be Conscious*® Podcast is published on the following platforms: Apple, Pandora, Google Play, Spotify, and Stitcher.

BOOKS: BRIEF DESCRIPTIONS

The Duality of Being

The Duality of Being details my life and the convoluted journey I made into higher realms of consciousness through my out-of-body travels. In this book, I will share with you the perspectives I have gained that have the power to improve your quality of life, decisions, and relationships. Each of us has the innate ability to separate our life energy from our physical body and travel into faraway dimensions. This book details the many discoveries.

Two Parts of Me

Two Parts of Me: I am More Than My Body introduces children to the dual nature of their lives on Earth – that they are both a physical being and an energy being. *Two Parts of Me* helps young children to understand the meaning and importance of the feelings emanating from their energy bodies. Children are encouraged to trust their innermost feelings and to recognize intuition as guidance from their souls. Children are reminded of their soul's infinite connection to the Source energy of the Universe.

The Death of Cupcake

The Death of Cupcake: A Child's Experience with Loss exposes the intersection of grief and consciousness from a child's perspective. It opens a conscious dialogue about life and loss, reminding parents and children of their infinite nature. *The Death of Cupcake* elevates our collective perspective surrounding loss to overcome our societal fears of finality.
